La Mancha Resources Inc.

Notes to Interim Consolidated Financial Statements

June 30, 2009

*Amounts in thousands of Canadian dollars unless otherwise stated
(unaudited)*

1. NATURE OF ACTIVITIES

La Mancha Resources Inc. (the "Company") was incorporated on October 10, 1996 under the Company Act of the Province of British Columbia in Canada. Through its subsidiaries and joint ventures, collectively "the Group", the Company conducts gold mining operations and/or exploration in Argentina, Australia, Côte d'Ivoire and Sudan.

A portion of the Group activities is directed to the search for and the development of new mineral deposits and the producing of the mining properties acquired through the Group and significant capital investment will be required to achieve successful commercial production from such properties. In addition significant capital investment may be required in order to maintain or expand the operations of the Group. There is no assurance that the Group will have, or be able to raise, the required funds to engage in these activities and this could have an impact on the recoverability of a portion of the assets which is partly dependent on this assumption.

2. INTERIM FINANCIAL INFORMATION

The financial information presented as at June 30, 2009 and for the three and six month periods ended June 30, 2009 and 2008 is unaudited. However, in the opinion of management, all adjustments necessary to fairly present the results of these periods have been included. The adjustments which have been made are of a normal recurring nature. These unaudited interim consolidated financial statements are prepared in accordance with Canadian generally accepted accounting principles and use the same accounting policies and methods used in the preparation of the Company's most recent annual consolidated financial statements, except for the adoption of new accounting standards as disclosed in Note 3. These unaudited interim financial statements do not include all disclosures required for annual financial statements and should therefore be read in conjunction with the Company's most recent audited annual consolidated financial statements.

3. CHANGES IN ACCOUNTING POLICIES

NEW ACCOUNTING PRONOUNCEMENTS ADOPTED

Goodwill and intangible assets

Issued in February 2008, Section 3064, "Goodwill and intangible assets", replaced Section 3062, "Goodwill and other intangible assets", and Section 3450, "Research and development costs" effective January 1, 2009. Various changes were made to other sections of the CICA Handbook for consistency purposes including but not limited to the withdrawal of EIC 27 "Revenues and expenditures during the pre-operating period" and updates to AcG-11 "Enterprises in the development stage". The new section is applicable to financial statements relating to fiscal years beginning on or after October 1, 2008. Accordingly, the Company adopted this new standard for its interim period and fiscal year beginning January 1, 2009. It establishes standards for the recognition, measurement, presentation and disclosure of goodwill subsequent to its initial recognition and of intangible assets by profit-oriented enterprises. Standards concerning goodwill are unchanged from the standards included in the previous Section 3062. The adoption of this Section had no significant effect on the Company's consolidated financial statements.

Credit risk and the fair value of financial assets and financial liabilities

Abstract 173 "Credit risk and the fair value of financial assets and financial liabilities", from Emerging Issues Committee ("EIC"), states that an entity's own credit risk and the credit risk of the counterparty should be taken into account when determining the fair value of financial assets and financial liabilities including derivative instruments. This Abstract is applicable to all financial assets and liabilities measured at fair value in interim and annual financial statements for periods ending on or after January 20, 2009. The adoption of this Abstract did not have a significant impact on the Company's consolidated financial statements.

La Mancha Resources Inc.

Notes to Interim Consolidated Financial Statements

June 30, 2009

*Amounts in thousands of Canadian dollars unless otherwise stated
(unaudited)*

3. CHANGES IN ACCOUNTING POLICIES (CONTINUED)

NEW ACCOUNTING PRONOUNCEMENTS ADOPTED (continued)

Mining exploration costs

On March 27, 2009, the CICA issued EIC Abstract 174 – “Mining Exploration Costs” which supercedes EIC Abstract 126 “Accounting by Mining Enterprises for Exploration Costs”, to provide additional guidance for mining exploration Enterprises on the accounting for capitalization of exploration costs and when an impairment test of these costs is required. EIC 174 is applicable for the Company’s interim and annual consolidated financial statements for its fiscal year ending December 31, 2009, with retrospective application. The adoption of this Abstract did not have a significant impact on the Company’s consolidated financial statements.

EFFECT OF NEW ACCOUNTING STANDARDS NOT YET IMPLEMENTED

Business combinations

In January 2009, the CICA issued Handbook Section 1582, Business Combinations, which replaces Section 1581, Business Combinations. The new Section expands the definition of a business subject to an acquisition and establishes significant new guidance on the measurement of consideration given, and the recognition and measurement of assets acquired and liabilities assumed in a business combination. The new Section requires that all business acquisitions be measured at the full fair value of the acquired entity at the acquisition date even if the business combination is achieved in stages, or if less than 100 percent of the equity interest in the acquiree is owned at the acquisition date. The measurement of equity consideration given in a business combination will no longer be based on the average of the fair value of the shares a few days before and after the day the terms and conditions have been agreed to and the acquisition announced, but rather at the acquisition date. Subsequent changes in fair value of contingent consideration classified as a liability will be recognized in earnings and not as an adjustment to the purchase price. Restructuring and other direct costs of a business combination are no longer considered part of the acquisition accounting. Instead, such costs will be expensed as incurred, unless they constitute the costs associated with issuing debt or equity securities. The Section applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2011. Earlier adoption is permitted. This new Section will only have an impact on the consolidated financial statements for future acquisitions that will be made in periods subsequent to the date of adoption.

Consolidated financial statements and non-controlling interests

In January 2009, the CICA issued Handbook Section 1601, Consolidated Financial Statements, and Handbook Section 1602, Non-Controlling Interests, which together replace Section 1600, Consolidated Financial Statements. Section 1602 applies to the accounting for non-controlling interests and transactions with non-controlling interest holders in consolidated financial statements. The new Sections require that, for each business combination, the acquirer measure any non controlling interest in the acquiree either at fair value or at the non-controlling interest’s proportionate share of the acquiree’s identifiable net assets. The new Sections also require non-controlling interest to be presented as a separate component of shareholders’ equity. Under Section 1602, non-controlling interest in income is not deducted in arriving at consolidated net income or other comprehensive income. Rather, net income and each component of other comprehensive income are allocated to the controlling and non-controlling interests based on relative ownership interests. These Sections apply to interim and annual consolidated financial statements relating to fiscal years beginning on or after January 1, 2011, and should be adopted concurrently with Section 1582. The Company is currently assessing the future impact of these new Sections on its consolidated financial statements.

La Mancha Resources Inc.

*Amounts in thousands of Canadian dollars unless otherwise stated
(unaudited)*

3. CHANGES IN ACCOUNTING POLICIES (CONTINUED)

EFFECT OF NEW ACCOUNTING STANDARDS NOT YET IMPLEMENTED (continued)

International Financial Reporting Standards

The Accounting Standards Board of Canada ("AcSB") plans to converge Canadian GAAP for publicly accountable enterprises with International Financial Reporting Standards ("IFRS") over a transition period that will end effective January 1, 2011 with the adoption of IFRS. The AcSB announced on February 13, 2008 that IFRS will be required in 2011 for publicly accountable profit-oriented enterprises. The changeover date is for interim and annual financial statements relating to fiscal years beginning at the latest on January 1, 2011. The Company will convert to these new standards according to the timetable set with these new rules. The Company is currently assessing the future impact of these new standards on its consolidated financial statements.

4. INVENTORIES

	As at June 30	As at December 31
	2009	2008
Raw materials and consumable stores	5,928	6,574
Work in progress, including stockpiles	29,097	30,397
Finished goods	2,202	2,101
	37,227	39,072

5. INVESTMENTS AND OTHER ASSETS

	As at June 30	As at December 31
	2009	2008
Investments in Australian listed equity securities	1,713	770
Investment in Asset-Backed Commercial Paper (ABCP) (see (a))	6,657	7,143
Deposits and prepaid expenses	323	322
	8,693	8,235

(a) Investment in Asset-Backed Commercial Paper

As at December 31, 2008, the Company held two notes for a \$12,000 principal amount of Canadian non-bank sponsored asset backed commercial paper ("ABCP") issued by two issuers. These two notes which were due and payable on September 4, 2007 remained outstanding as a result of the inability of the issuers to complete a rollover on the due date because of the lack of liquidity for ABCP.

On January 12, 2009, the Superior Court of Ontario granted the Implementation Order for the Restructuring Plan of these ABCP. On January 21, 2009, the Restructuring Plan was completed. Pursuant to the terms of the Restructuring Plan, the Group exchanged its short-term notes for long-term notes.

Upon closing of the Restructuring Plan:

- a first payment of \$398, representing interest that has accrued on ABCP between August 2007 and August 31, 2008, net of expenses including restructuring costs and reserves, was made to the Group. Further payments of \$115 representing interest earned in the ABCP conduits for the period between September 1, 2008 and the closing were made to the Company during the second quarter of 2009 following the review of the financial data from September 1, 2008 by the monitor of the Restructuring Plan.

La Mancha Resources Inc.

Notes to Interim Consolidated Financial Statements

June 30, 2009

*Amounts in thousands of Canadian dollars unless otherwise stated
(unaudited)*

5. INVESTMENTS AND OTHER ASSETS (CONTINUED)

(a) Investment in Asset-Backed Commercial Paper (continued)

- the Group received \$2,927 of MAV2 Class A-1 Notes, \$6,521 of MAV2 Class A-2 Notes, \$1,184 of MAV2 Class B Notes, \$329 of MAV2 Class C Notes and \$949 of MAV2 Class IA Tracking Notes (collectively the "Long-term Notes"). The MAV2 Class A-1 Notes, MAV2 Class A-2 Notes, MAV2 Class B Notes will accrue interest at the Bankers' Acceptances ("BA") rate less 0.50%. The MAV2 Class C Notes will accrue interest at the BA rate plus 20%. The MAV2 Class IA Tracking Notes will bear interest at the rate equal to the net rate of return generated by the related specific underlying assets.

The Group designated the Notes as held-for-trading. There is currently no active market available for these Long-Term Notes. The maximum expected maturity of the Long-Term Notes will be approximately 8 years from June 30, 2009. As at June 30, 2009, there is a significant amount of uncertainty in estimating the amount and timing of cash flows associated with the Long-Term Notes. The Company estimates the fair values of the Long-Term Notes using a valuation technique which incorporates a probability-weighted approach applied to discounted future cash flows considering the best available data regarding market conditions for such investments as at June 30, 2009. The discount rates consider factors that include the BA rate and credit spread applicable to the anticipated credit rating.

The Group has considered current market conditions surrounding the Restructuring Plan such as liquidity, transparency and credit risk in developing the assumptions used in estimating the fair value of the ABCP. Due to the market conditions, the group completely devalued the MAV2 Class C Notes and the MAV2 Class IA Tracking Notes (the underlying assets of Tracking Notes have exposure to U.S. sub-primes mortgages) as at December 31, 2008.

Based on the discounted cash flow model as at June 30, 2009, the fair value of the Company's Notes was estimated at \$6,657 (2008 - \$7143) which included accrued interest of \$16 (2008 - \$441). For the three and six month period ended June 30 2009, the Group recorded \$499 (2008: \$nil) and \$27 (2008: \$(1,500)) in gain on investment on the consolidated statement of operations respectively. The net variation in fair value on the balance sheet for the same periods is \$384 (2008: \$nil) and \$(486) (2008: \$(1,500)) respectively. The changes in fair value on the balance sheet are due to lower discount rates, an increase in liquidity premiums, and higher interests rates. These changes in fair value were partially offset by interests received of \$115 (2008 -\$nil) and \$513 (2008 - \$nil) for the three and six month period ended June 30, 2009.

Since the fair value of the Long-Term Notes is determined using a probability-weighted approach employing the foregoing assumptions and is based on the Group's assessment of market conditions as at June 30, 2009, and despite the fact that the restructuring took place on January 21, 2009 the fair value reported may change materially in subsequent periods.

A 1% increase in the discount rate will decrease the fair value by approximately \$451.

La Mancha Resources Inc.

Notes to Interim Consolidated Financial Statements

June 30, 2009

*Amounts in thousands of Canadian dollars unless otherwise stated
(unaudited)*

6. LONG-TERM DEBT

In March 2008, the Company negotiated a medium-term treasury agreement with its majority shareholder to facilitate the funding of the construction and start-up costs of the underground phase of the Frog's Leg mine project in Australia

The agreement provides for a line of credit up to a maximum of AU\$22,000 until December 31, 2011. The credit line bears interest based on the 3 or 6 months LIBOR index plus 2.75% per year, depending on the duration of each withdrawal. The loans are payable on maturity and can be renewed for another period. This agreement is not secured and may be terminated at any time in the event that the affiliation between the parties should be altered.

As at June 30, 2009, the Company has drawn \$12,219 (AU\$13,050) with a maturity ranging from July to September 2009 renewable until the expiration of this agreement. Accrued interest payable at period end amounted to \$150 (AU\$160). For the three and six month periods ended June 30, 2009 and 2008, the Group recorded an interest expense of \$254 (AU\$287) and \$537 (AU\$628) (2008: \$109 and \$109) respectively in the consolidated statement of operations with respect to the borrowings under these agreements. There are no covenants associated with the line of credit.

7. EARNINGS PER SHARE

Basic and diluted earnings per share have been calculated as follows:

	Three month period ended June 30		Six month period ended June 30	
	2009	2008	2009	2008
Basic weighted average number of common shares outstanding	142,034,850	142,007,850	142,034,850	142,007,850
Dilutive effect of stock options	–	–	–	–
Diluted weighted average number of common shares outstanding	142,034,850	142,007,850	142,034,850	142,007,850

For the three and six month periods ended June 30, 2009 and 2008, all options outstanding were anti-dilutive.

8. SHARE CAPITAL

a) Authorized

An unlimited number of common shares without par value.

b) Options

On May 8, 2009, the Company granted 220,000 stock options to officers, exercisable at \$0.66 per share. One half of the options vest in May 2011 and the other half vest in May 2012. All options expire in May 2015. The fair value of \$0.2524 per option is based on the Black-Scholes option pricing model with the following weighted average assumptions: risk-free interest rate of 2.0%, expected volatility of 60%, expected dividend of nil and expected life of 6 years.

Six month period ended June 30, 2009			
	Number	Carrying value \$	Weighted average exercise price \$ per share
Beginning of period	1,065,000	95	0.66
Granted	220,000	–	0.66
Stock based compensation	–	38	–
End of the period	1,285,000	133	0.66

For the three and six month periods ended June 30, 2009, the Group recorded stock based compensation expense of \$19 and \$38 (2008: \$19 and \$29) respectively.

As at June 30, 2009, the options outstanding under the plan are as follows:

Options outstanding					Options exercisable	
Range of exercise prices	Number of options	Weighted-average remaining contractual life	Weighted-average exercise Price (\$)	Weighted-average grant date fair value (\$)	Number of options	Weighted average exercise price (\$)
\$0.30	40,000	5.1	\$0.30	\$0.10	–	–
\$0.46	640,000	4.7	\$0.46	\$0.15	–	–
\$0.66	220,000	5.9	\$0.66	\$0.25		
\$0.86 to \$0.87	280,000	4.0	\$0.86	\$0.45	90,000	\$0.86
\$1.50	105,000	1.9	\$1.50	\$0.04	105,000	\$1.50
	1,285,000	4.5	\$0.66	\$0.22	195,000	\$1.21

9. RISK MANAGEMENT

Hedges

The Group is exposed to commodity price risk mainly arising from gold sales and energy supply and may use derivative financial instruments, including forward sales agreements and options, to reduce its exposure to commodity price volatility.

Effective in the first quarter of 2009, the Group entered into a series of gold costless collar ("collar") contracts to manage its exposure to gold price volatility. A costless collar is a combination of two option contracts that limit the holder's exposure to changes in prices within a specific range. The "costless" nature of this derivative is achieved by buying a put option (the right to sell) for consideration equal to the premium received from selling a call option (the right to purchase).

The collars are recorded at their current fair value at the end of each reporting period. The fair values are based on estimates using present value techniques and other valuation models such as the black-Scholes model. The credit risk associated with the counterparties issuing the options is taken into account in the evaluation of the fair value of the hedging instruments.

These collars did not qualify for hedge accounting as documentation was not completed. Consequently, changes in intrinsic value and in time value of these collar contracts, if any, are recorded in other operating income (expense) in the consolidated statement of operations.

As at June 30, 2009, the Group held gold collar derivative contracts for its Ivorian operations totalling 9,970 oz for which the purchased puts and sold call options have average strike prices of €580/oz and €893/oz. Furthermore, the Group also held gold collar derivative contracts for its Australian operations totalling 14,600 oz that include purchased put and sold call options with average strike prices of AU\$1,210/oz and AU\$1,795/oz. These contracts have maturities ranging from July 2009 through January 2010. The terms of the collar derivative contracts specify that the settlement is in cash, and is based on the average London Bullion Market Association price ("Asian" options) for the month in which the derivatives settle.

For the three and six month periods ending June 30, 2009, no options were exercised and as such, the Group did not record any gain or loss resulting from the exercise of these contracts.

9. RISK MANAGEMENT (CONTINUED)

Hedges (continued)

The following table sets forth the changes in the fair value of the hedging instruments accounted for in the consolidated financial statements:

	Fair value	
	Assets	Liabilities
Derivatives hedging instruments:		
Gold call options sold	1,368	–
Gold put options bought	–	(98)
Total as at June 30, 2009	1,368	(98)
Classification:		
Current portion of derivative hedging instruments	1,368	(98)
Long-term portion of derivative hedging instruments	–	–
Total as at June 30, 2009	1,368	(98)
	Three month period ended	Six month period ended
Changes in fair value of hedging instruments	June 30	June 30
Changes in time value of hedging instruments recorded in the consolidated statement of operations	586	333
Changes in intrinsic value of hedging instruments recorded in the consolidated statement of operations	907	907
Total at the end of the period	1,493	1,240

The Group does not enter into derivative transactions for speculative purposes.

10. SEGMENTED INFORMATION

The Group's operations are concentrated on gold mining and exploration and are managed on a country by country basis. These segments are described below:

- **Ivory Coast** reflects the Group's joint venture interest in the operations of SMI, which operates the Ity gold mine in western Ivory Coast and holds contiguous exploration interests;
- **Sudan** reflects the Group's joint venture interest in the operations of AMC, which operates the Hassaï mines in north-eastern Sudan and holds contiguous exploration interests;
- **Australia** reflects the Group's operations of LMRA. LMRA's mining operations on its two principal properties in Western Australia, White Foil and Frog's Leg. The start-up of the White Foil mining operations was delayed in order to review the mining plan and milling opportunities. As at January 1st, 2009, the Frog's Leg mine completed its development phase and was considered to have started its production phase in compliance with management criteria. The sales generated from the Frog's Leg mine are now presented in the consolidated statement of operations as revenue. LMRA also holds exploration interests in Western Australia and, to a lesser extent, in Queensland;
- **Argentina** reflects the exploration activities carried out by Compania Minera Esperanza S.A.

The Other activities reflect the Group's corporate risk management, treasury and support activities, unallocated assets located in France and Canada, and inter-segment eliminations.

Revenue is allocated based on the country in which the gold is produced. Each of the Ivory Coast, Sudan and Australia segments has one major customer that accounts for the majority of its revenue. Assets are attributed to where they are located. The Group analyzes the performance of its operating segments based on their net income.

Three month period ended June 30, 2009

	Ivory Coast	Sudan	Australia	Argentina	Other	Total

11. CONTINGENCIES

Compania Minera El Colorado

On April 24, 2009, the Group was informed by its legal adviser that a lawsuit was filed before the commercial court of the City of Buenos Aires against the Company by a former partner in the Hualian II project, the Compañía Minera El Colorado ("El Colorado") of Argentina. At the time of reporting, management has no information on the nature or the possible outcome of this new lawsuit.

Income tax - Sudan

In February 2009, the Company received copy of a letter from the Minister of Energy and Mining dated February 2, 2009 addressed to the Minister of Finance recommending a decision to be made by the Council of Ministers so that the mining sector is taxed at 10%.

Moreover, the Sudanese Auditing Chamber approved the 2008 annual financial statements of AMC with a 10% income tax rate.

As at June 30, 2009, the Company has not received any confirmation on the tax rate for the year 2008 and onwards. It is management's opinion that this change in tax rate for the fiscal year 2008 is contrary to the agreement confirmed by the Minister of Energy and Mining Activities and the State Finance Minister on January and February 2008 so that it will be amended.

In April 2009, AMC concluded an agreement with the Sudanese tax department on the settlement of the income tax for the year ended December 31, 2007. The Sudanese tax department accepted to settle the disputed amounts for a lump sum of \$100 (€60) recorded under income tax expense in the consolidated statement of operations and to terminate the claim file.

12. EMPLOYEE FUTURE BENEFITS

The employee future benefits expense related to defined benefit plans for the period ended June 30, 2009 was as follows:

Three month period ended June 30		Six month period ended June 30	
2009	2008	2009	2008
21	170	204	469
